

Gallium Arsenide Wafer

GaAs

Product family: Wafers & Substrates

SUPPLY FORMS	INFORMATION FOR A PRECISE RFQ
• Doped or undoped • Semi-insulating • Single- or double-side polished • Epi-ready surface	• Diameter • Crystal orientation and offcut • Thickness • Doping and resistivity • Surface finish • Quantity

TYPICAL APPLICATIONS

- RF and microwave devices
- Photonics
- Solar cells
- III-V epitaxy research

ORDER AND DOCUMENTATION

Final purity, composition, dimensions, tolerances, analysis documentation, quantity, lead time and DAP or EXW delivery terms are confirmed in the Adesis quotation. Values in this guide are descriptive and do not constitute a binding product specification.
